'O' Scale Picnic Tables — 6' long

Print on smooth 210 gsm card stock, use good quality white glue and finish with mat spray to protect from smearing and fading. Makes four tables.

Fold table tops (right) in half with cross brace underneath. Glue individual 6' boards (above and below) to top side only before fitting cross brace cut to length from 6' boards. Uprights fit inside and against the cross braces. Cut sets of four (4) boards and fold in half for bench tops. Add individual boards to top only and glue in place for final assembly.
