Part 15: Navy Wagons

All mills have some type of navy or work wagons. These can range from ballast hoppers and plows, flat wagons, shipping containers mounted on bogies to passenger carriages.

As most navy wagons are made by the mill for their own specific use, no one wagon is the same as

another. Some navy wagons were even acquired from former non-sugar tramways, like the Burrinjuck Dam, Mapleton and Innisfail tramways. The photos only show a very small selection of navy wagons that can be found.

Bogie ballast hopper, Proserpine Mill

4 wheel ballast plow, Inkerman Mill

4 wheel weed sprayer, Bingera Mill

Bogie flat wagon ex-Burrinjuck Tramway, Fairymead Mill

Bogie passenger wagon, Marian Mill

14 ton bogie cane bin frame fitted with a 20 foot container, Farleigh Mill
