

# Pineapple Bins, Yeppoon - O Scale (1:48)

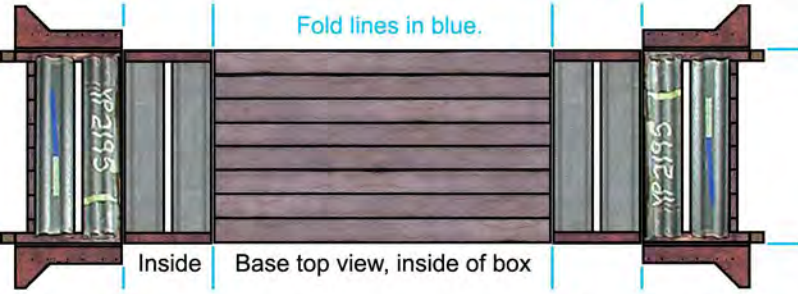

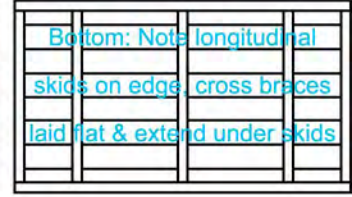

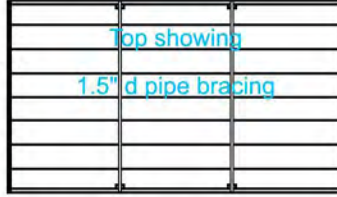

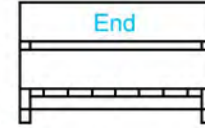

zelmeroz.com/mrzc © 2019

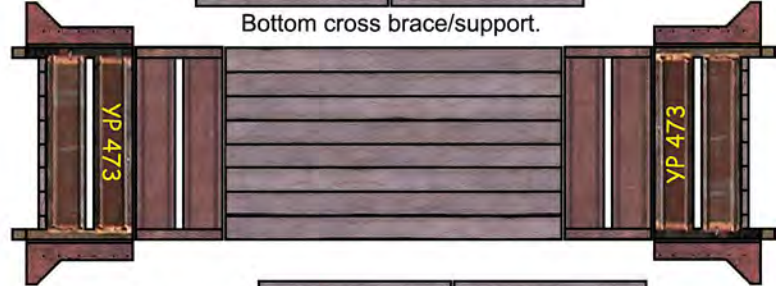

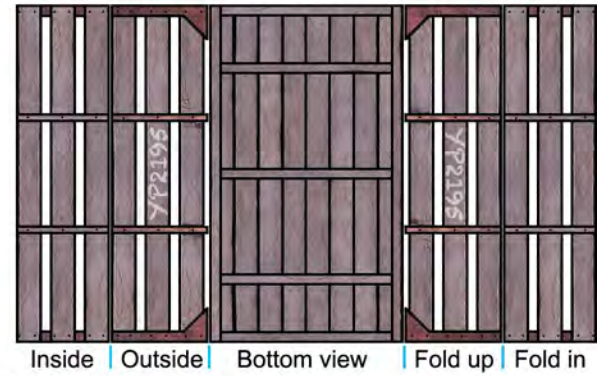

- 1.5" vertical steel straps sides
- 1" x 2" timber vertical straps inside
- 1.5" d pipe, ends flattened across top
- 2" angle welded frame corners/ends
- 1" x 6" timber sides/floor
- 10" wide galvanised plates ends
- 2" x 3" timber skids/braces under box

<- Metal and timber straps - cut and fold over.

Fold over bottom support & glue before separating. Colour edges, install so ends visible. Use 2" x 3" scale lumber, stained appropriately, for skid base.

Complete all cuts and score folds before assembly!

Try fine fishing line or thread for top brace, fix with superglue/epoxy.
