

Plan location of glue tabs before cutting; cut interior bracing from scrap as required

Stumps—four required, roll and cut as required, cabinet is less than 6" off concrete pad

Concrete base is same size as shed (5' x 8'). Can be modelled in scenery or flat fitting attached to shed.

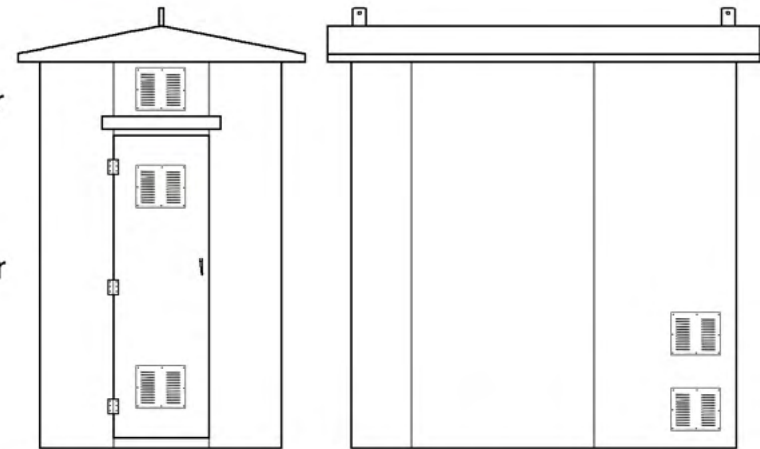

Assemble shed as box with flat top; assemble roof separately and fix to shed assembly. See photo for location of pit covers.

Material for hood over door if desired.

Lift bars & door handles
