

IN THE CLEAR

**Take three minutes
to read these
facts about your
job and make
logging a safe
industry for you.**

HELP PREVENT LOGGING ACCIDENTS

1. Don't be careless about saplings.

2. Carry axes and saws with respect—the right way. Make two trips if necessary.

3. Wear good gloves. Be careful of jagers. Watch out for a kink in the choker. Always throw choker OVER top of log.

DON'T TAKE CHANCES

**EVERY TIME YOU TAKE A CHANCE IT
BECOMES EASIER TO HAVE AN ACCIDENT**

A FEW MUSTS IN THE SAFETY RULES OF THE WOODS

4. Learn to lift heavy objects with your legs. A sprained back or rupture can mean months in a hospital bed.

5. Watch the log that might roll...

Always work on the upper side.

6. Beware of loose bark when walking on logs...

PRODUCTION means your job well done with no time out for accidents...

HELP PREVENT LOGGING ACCIDENTS

7. Wear clothes that fit you — and the weather.

8. Wear good boots. Caulks—if used—should be sharp.

9. If you're not a brakeman don't jump off moving trains, trucks and speeders. It is better to be thirty seconds too late than thirty years too soon.

A FEW MUSTS IN THE SAFETY RULES OF THE WOODS

10. Keep your eyes on the rigging and keep behind and to the side of the turn.

11. Keep out of the bight of the line and clear of running lines . . .

12. Get first aid for every injury even a small scratch.

HELP PREVENT LOGGING ACCIDENTS

13. Don't drink on the job. You need your wits. Don't come to work when they are dulled by drinking.

14. Be sure you know the tricks of your job. If you don't, ask your supervisor.

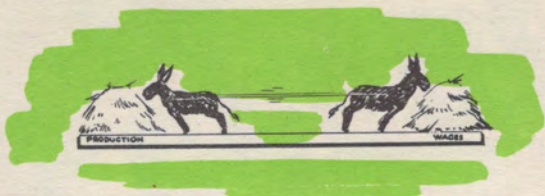

15. If you have a good idea . . . Tell your foreman about it.

See your foreman about FIRST AID TRAINING

A FEW MUSTS IN THE SAFETY RULES OF THE WOODS

16. Remember . . . The right way to
do a job is the safe way.

17. Cooperation and
good will are nec-
essary for safe
production.

WEAR A HARD HAT

18. It's your protec-
tion against . . .
throwbacks
snags
broken limbs.

Learn First Aid, it will Help You Save a Life.

● MOST
ACCIDENTS
ARE CAUSED
BY

● SLIPPING
and FALLING
HAZARDS

● FALLING TREES
FLYING LIMBS
and SAPLINGS

● CARELESSNESS AROUND
THE RIGGING

● IMPROPER LIFTING
and HANDLING
of MATERIAL

● SAWS and AXES

● MOVING MACHINERY
